This report describes crime incidents in the ABSPY intervention area over the spring months of June, July, August 2025. It is divided into six sections: One for each hot spot (Rose Street, Rainier & Henderson, Light Rail, Lake Washington, Our Safe Way) and a summary of all hot spots for the quarter. Each section contains the following data:

1. Number of police offenses this summer 2025 compared to the previous summer seasons, 2014-2025 (by age group and broad category: person, property, society, or other)
2. Number of selected offenses in summer 2025 compared to the previous summer seasons, 2014-2025 (by age group and offenses of interest at the hot spot: aggravated assault, simple assault, and robbery)

## DEFINITIONS OF FREQUENTLY USED TERMS

- **Offenses:** Offenses are events that involve criminal activity. Every offense involved in a single crime activity is reported in the data as a single, distinct crime. There may also be incidents involved within offenses; these are non-crime police activities that took place within the event. We prioritize violent offenses in this analysis. See the example below for information about how this affects the numbers.
- **Incident/Offense Example:** A report will contain all the offenses or incidents that occurred during a single event. For example, during a traffic stop a driver is arrested for DUI and the police impound their vehicle. The DUI is classified as the **offense** because this is the crime that took place during this event. The vehicle impound is classified as an **incident** because this is a police action that took place during the same event, but it is not a crime event.
- **Person Offenses:** Crimes involving a person as a victim, e.g. assault, aggravated assault.
- **Property Offenses:** Crimes involving loss of or damage to someone's property, e.g. robbery, theft, burglary, property damage, arson.
- **Society Offenses:** Crimes that affect public order and quality of life, e.g. disturbances, liquor violations, drugs, threatening behavior, weapons, prostitution.
- **Other Offenses:** Crimes that do not fit into person, property, or disorder categories, such as fraud and trespassing.
- **Youths:** Individuals 25 years old or younger.
- **Adults:** Individuals 26 years old or older.

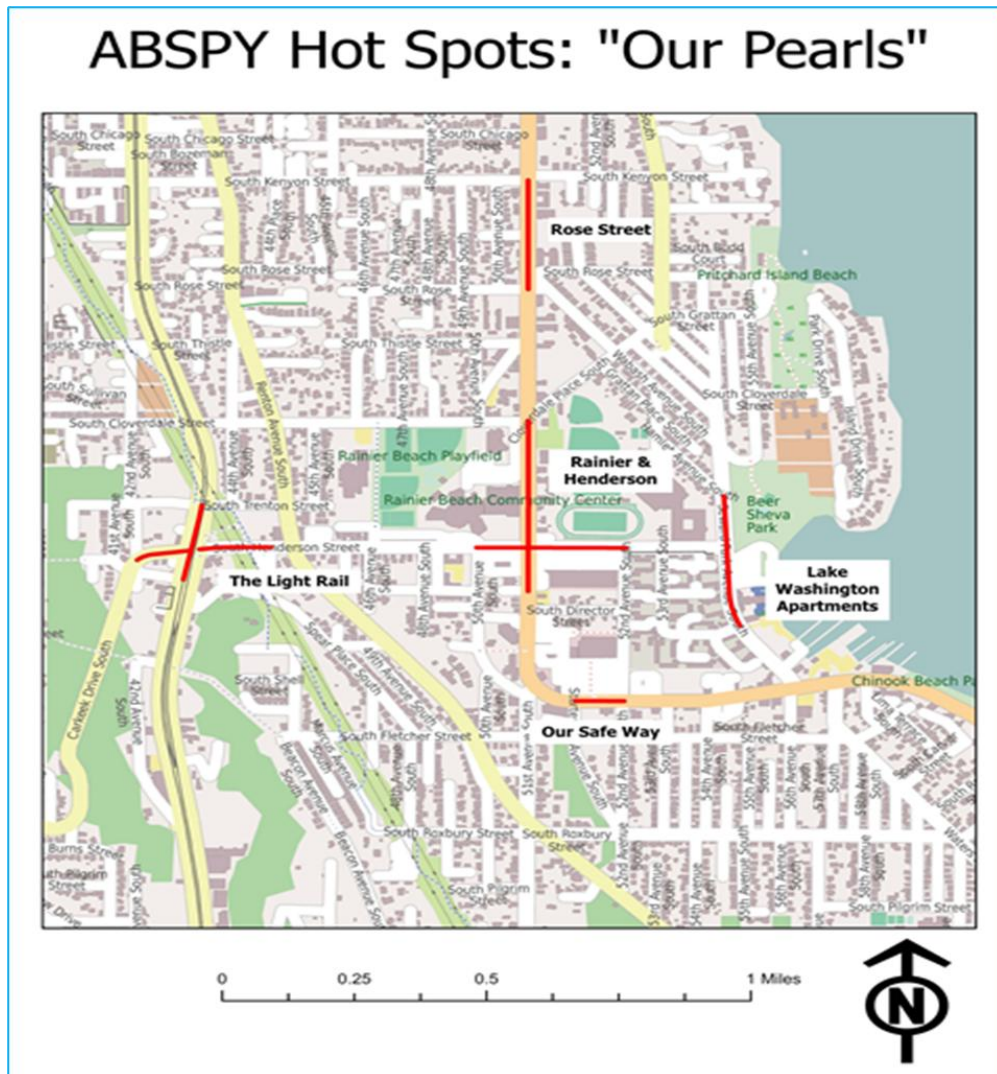

## CAVEATS

1. Seattle Police Department uses NIBRS data formatting to count and prioritize offenses, with NIBRS grouping categories "Group A" and "Group B" separating the more serious crimes from the less serious crimes respectively.
2. Crime counts can change rapidly from month to month, especially in small areas. Quarterly and even yearly changes are not necessarily indicative of long-term crime trends.
3. The Seattle Police Department recently switched to the NIBRS reporting system and is still in the process of compiling their new database. The new data categorize some offenses differently and as such, numbers are subject to change and should not be compared to previous reports.

## MAJOR TRENDS

1. All crimes – Change from Fall 2024 – Fall 2025: For youth, the frequency of Person offenses decreased, Property offenses decreased, Society offenses increased, and other offenses decreased. For adults, Person offenses decreased, Property offenses decreased, Society offenses decreased, and other offenses remained constant.
2. Person-specific Crimes – Change from Fall 2024 – Fall 2025: For youth, the frequency of Aggravated Assault decreased, Simple Assault increased, and Robbery decreased. For adults, Aggravated Assault remained constant, Simple Assault decreased, and Robbery increased.

**HOT SPOT SPECIFIC TRENDS** CRIME DATA IS PRESENTED FOR FIVE RAINIER BEACH CRIME HOT SPOTS REFERRED TO BY THE RAINIER BEACH ABSPY AS “OUR PEARLS: ROSE STREET, RAINIER AND HENDERSON, LIGHT RAIL, LAKE WASHINGTON, AND OUR SAFE WAY.

## ROSE STREET

1. All crimes – change from Fall 2024 – Fall 2025: For youth, the frequency of Person offenses increased, Property offenses remained constant, Society offenses remained constant, and other offenses decreased. For adults, Person offenses decreased, Property offenses decreased, Society offenses remained constant, and other offenses increased.
2. Person-specific crimes – Change from Fall 2024 – Fall 2025: For youth, the frequency of Aggravated Assault remained constant, Simple Assault remained constant, and Robbery remained constant. For adults, Aggravated Assault decreased, Simple Assault decreased, and Robbery remained constant.

## RAINIER AND HENDERSON

1. All crimes – Change from Fall 2024 – Fall 2025: For youth, the frequency of Person Offenses decreased, Property offenses decreased, Society offenses decreased, and other offenses remained constant. For adults, Person offenses decreased, Property offenses decreased, Society offenses decreased, and other offenses decreased.
2. Person-specific crime – Change from Fall 2024 – Fall 2025: For youth, the frequency of Aggravated Assault remained constant, Simple Assault increased, and Robbery increased. For adults, Aggravated Assault decreased, Simple Assault remained constant, and Robbery remained constant.

## LIGHT RAIL

1. All crimes – Change from Fall 2024 – Fall 2025: For youth, the frequency of Person offenses remained constant, Property offenses remained constant, Society offenses remained constant, and other offenses remained constant. For adults, Person offenses remained constant, Property offenses remained constant, Society offenses increased, and other offenses increased.
2. Person-specific crimes – Change from Fall 2024 – Fall 2025: For youth, the frequency of Aggravated Assault remained constant, Simple Assault remained constant, and Robbery decreased. For adults, Aggravated Assault remained constant, Simple Assault remained constant, and Robbery remained constant.

## LAKE WASHINGTON

1. All crimes – Change from Fall 2024 – Fall 2025: For youth, the frequency of Person offenses decreased, Property offenses increased, Society offenses increased, and other offenses decreased. For adults, Person offenses remained constant, Property offenses increased, Society offenses decreased, and other offenses remained constant.
2. Person-specific crimes – Change from Fall 2024 – Fall 2025: For youth, the frequency of Aggravated Assault decreased, Simple Assault decreased, and Robbery remained constant. For adults, Aggravated Assault increased, Simple Assault remained constant, and Robbery increased.

## OUR SAFE WAY

1. All crimes – Change from Fall 2024 – Fall 2025: For youth, the frequency of Person offenses decreased, Property offenses decreased, Society remained constant, and other offenses remained constant. For adults, Person offenses increased, Property offenses increased, Society offenses remained constant, and other offenses remained constant.
2. Person-specific crimes – Change from Fall 2024 – Fall 2025: For youth, the frequency of Aggravated Assault decreased, Simple Assault increased, and Robbery decreased. For adults, Aggravated Assault increased, Simple Assault remained constant, and Robbery decreased.

## ALL RAINIER BEACH HOTSPOTS: SPECIFIC OFFENSES BY AGE, GROUP, AND NUMBER

### All Events: Quarterly Time Series 2014-2025

In this section, we provide a broad overview and historical context for the more detailed ABSPY hot spots crime statistics that appear in later sections.

Figure A presents the Q4 overall crime statistics in 2025, compared with the same quarter during the prior 11 years. Crime volume during Q4 has an average of 82 crimes per quarter during this period, but the last two years have been well above the series average. In 2024, there were 112 crimes recorded, and 116 in 2025. These figures are just over two standard deviations above the series mean.

Figure B presents the quarterly data sequentially for 2025 year-to-date and the previous five years. It can be seen that 2025 (represented by the bold red line) was a fairly typical year in the first two Quarters as compared with the previous five years. 2025 Q3 was the second highest compared with the prior five years, and 2025 Q4 was the highest compared with the prior five years.

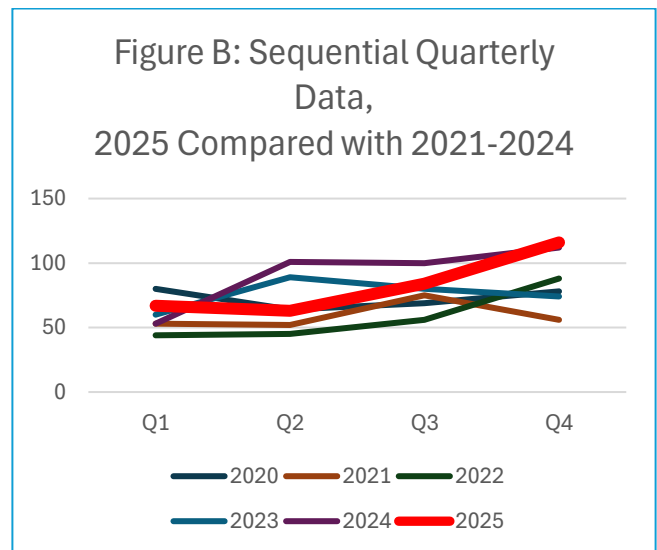

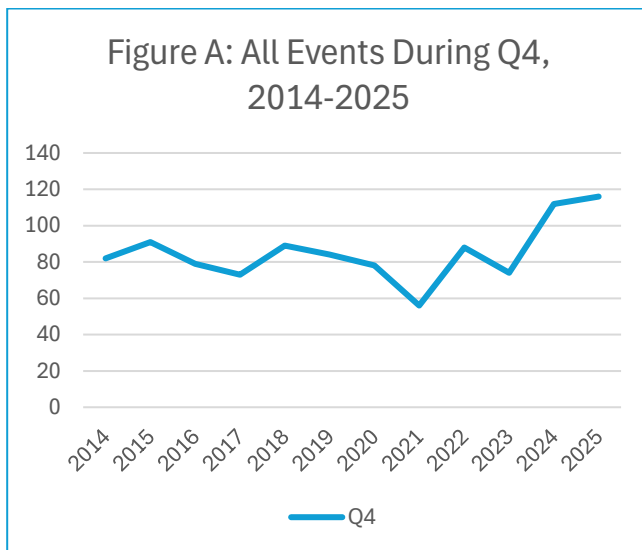

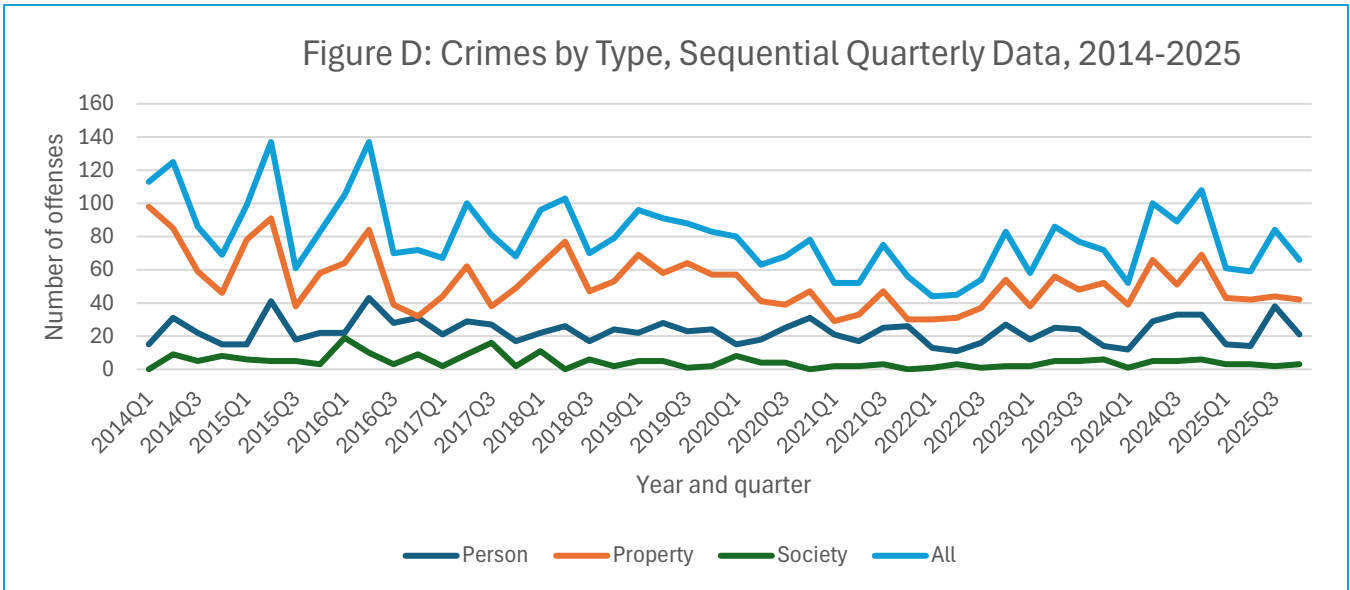

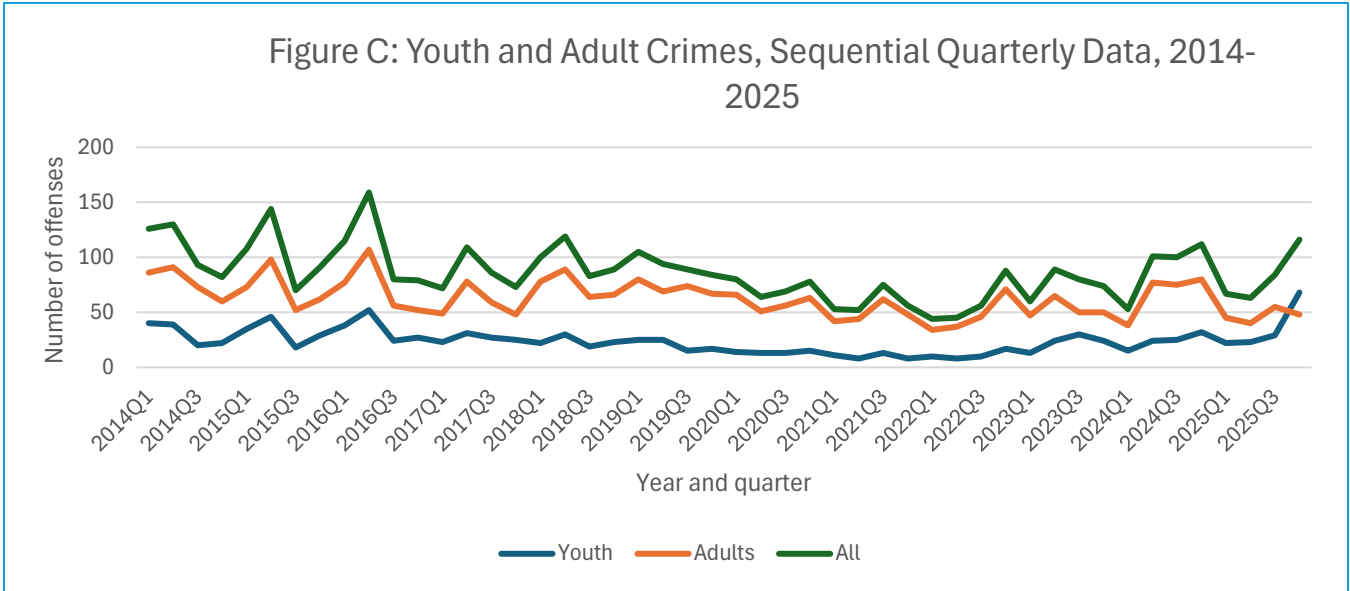

Figure C presents the sequential quarterly data from 2014 through 2025 year-to-date, with youth and adult crimes separated out. During this time period, offenses peaked at 159 (107 adult and 52 youth offenses) during 2016 Q2 and were lowest at 44 (34 adult and 10 youth offenses) during 2022 Q1. Looking at the overall sequence, it does

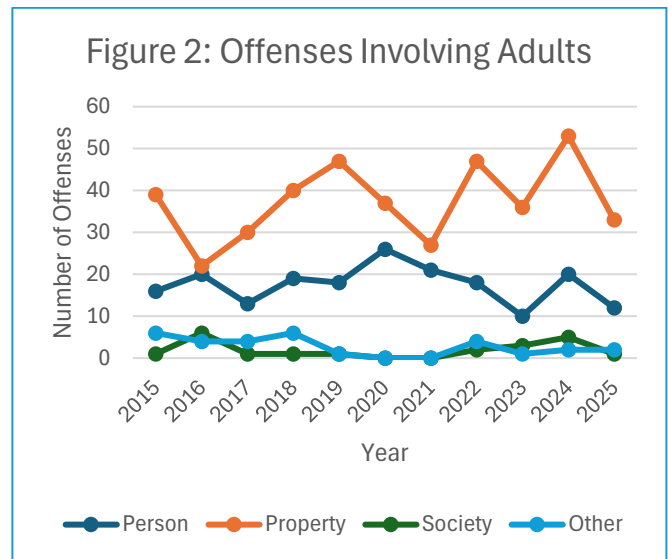

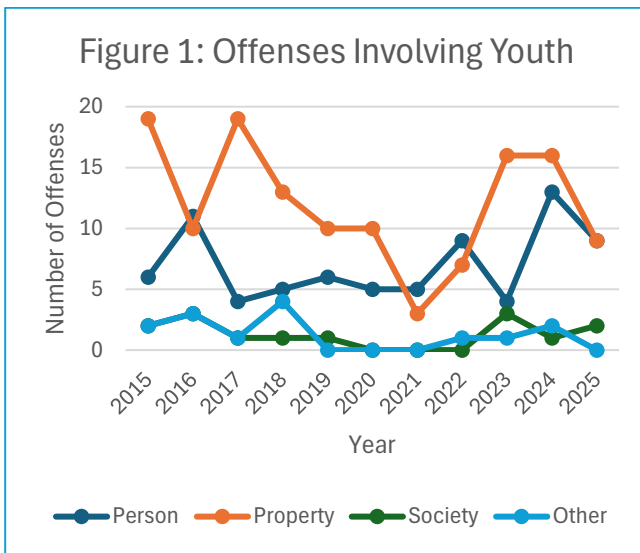

appear that there may be an upward trend forming from 2022 through 2025 Q4. Notably, youth offenses peaked in 2025 Q4 with 68 offenses.

Figure D presents the sequential quarterly data from 2014 through 2025 year-to-date, with crime types separated out (including Person, Property, and Society offenses). During this time period, peak values for Property offenses were 98 during 2014 Q1; peak values for Person offenses were 43 during 2016 Q2, though it should be noted 2025 Q3 approached that high with 38 offenses; and peak values for Society offenses were 19 during 2016 Q1.

## All Events: September - November 2014-2025

- **Youth:** There were 237 offenses involving youth (77 Persons, 132 Property, 14 Society, and 14 Other) in all hotspots in September – November 2014-2025.
- **Adults:** There were 655 offenses involving adults (193 Persons, 411 Property, 21 Society, and 30 Other) in all hotspots in September – November 2014 – 2025.

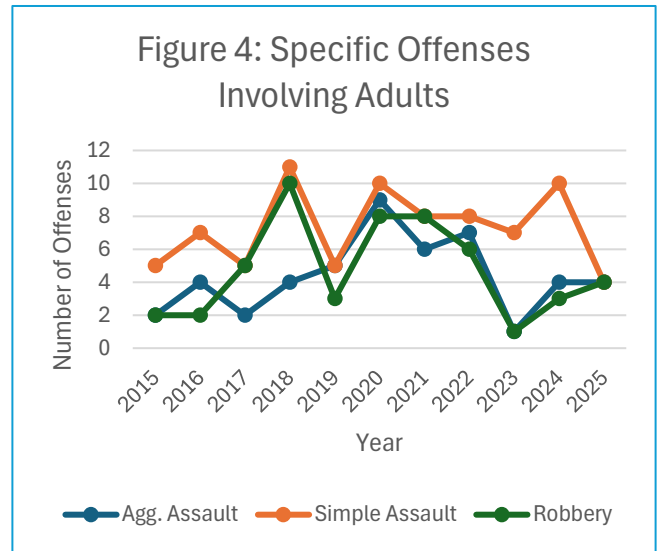

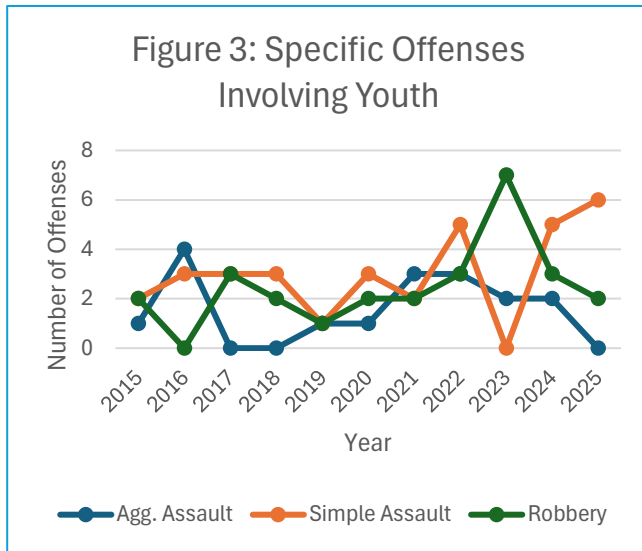

## Person-specific Events: June - August 2014-2025

Year	Involving Youths				Involving Adults			
	Person	Property	Society	Other	Person	Property	Society	Other
2015	6	19	2	2	16	39	1	6
2016	11	10	3	3	20	22	6	4
2017	4	19	1	1	13	30	1	4
2018	5	13	1	4	19	40	1	6
