This report describes crime incidents in the ABSPY intervention area over the spring months of June, July, August 2025. It is divided into six sections: One for each hot spot (Rose Street, Rainier & Henderson, Light Rail, Lake Washington, Our Safe Way) and a summary of all hot spots for the quarter. Each section contains the following data:

1. Number of police offenses this summer 2025 compared to the previous summer seasons, 2014-2025 (by age group and broad category: person, property, society, or other)
2. Number of selected offenses in summer 2025 compared to the previous summer seasons, 2014-2025 (by age group and offenses of interest at the hot spot: aggravated assault, simple assault, and robbery)

DEFINITIONS OF FREQUENTLY USED TERMS

- **Offenses:** Offenses are events that have criminal activity involved. Every offense involved in a single crime activity is reported in the data as a single, distinct crime. There may also be incidents involved within offenses; these are non-crime police activities that took place within the event. We prioritize violent offenses in this analysis. See the example below for information about how this affects the numbers.
- **Incident/Offense Example:** A report will contain all the offenses or incidents that occurred during a single event. For example, during a traffic stop a driver is arrested for DUI and the police impound their vehicle. The DUI is classified as the **offense** because this is the crime that took place during this event. The vehicle impound is classified as an **incident** because this is a police action that took place during the same event, but it is not a crime event.
- **Person Offenses:** Crimes involving a person as a victim, e.g. assault, aggravated assault.
- **Property Offenses:** Crimes involving loss of or damage to someone's property, e.g. robbery, theft, burglary, property damage, arson.
- **Society Offenses:** Crimes that affect public order and quality of life, e.g. disturbances, liquor violations, drugs, threatening behavior, weapons, prostitution.
- **Other Offenses:** Crimes that do not fit into person, property, or disorder categories, such as fraud and trespassing.
- **Youths:** Individuals 25 years old or younger.
- **Adults:** Individuals 26 years old or older.

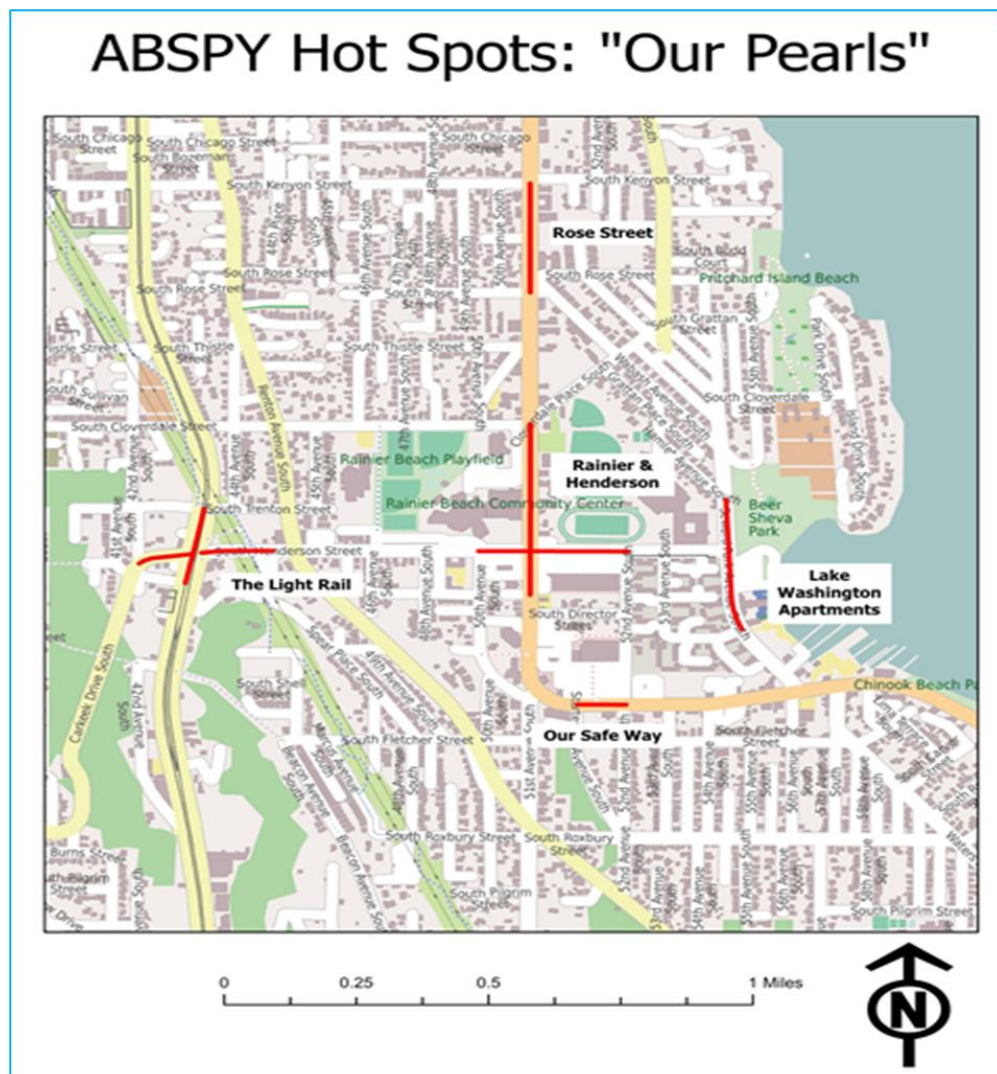

CAVEATS

1. Seattle Police Department uses NIBRS data formatting to count and prioritize offenses, with NIBRS grouping categories "Group A" and "Group B" separating the more serious crimes from the less serious crimes respectively.
2. Crime counts can change rapidly from month to month, especially in small areas. Quarterly and even yearly changes are not necessarily indicative of long-term crime trends.
3. The Seattle Police Department recently switched to the NIBRS reporting system and is still in the process of compiling their new database. The new data categorize some offenses differently and as such, numbers are subject to change and should not be compared to previous reports.

MAJOR TRENDS

1. All crimes – Change from Summer 2024 – Summer 2025: For youth, the frequency of Person offenses increased, Property offenses increased, Society offenses decreased, and other offenses decreased. For adults, Person offenses increased, Property offenses decreased, Society offenses decreased, and other offenses decreased.
2. Person-specific Crimes – Change from Summer 2024 – Summer 2025: For youth, the frequency of Aggravated Assault decreased, Simple Assault increased, and Robbery remained constant. For adults, Aggravated Assault decreased, Simple Assault increased, and Robbery increased.

HOT SPOT SPECIFIC TRENDS CRIME DATA IS PRESENTED FOR FIVE RAINIER BEACH CRIME HOT SPOTS REFERRED TO BY THE RAINIER BEACH ABSPY AS “OUR PEARLS: ROSE STREET, RAINIER AND HENDERSON, LIGHT RAIL, LAKE WASHINGTON, AND OUR SAFE WAY.

ROSE STREET

1. All crimes – change from Summer 2024 – Summer 2025: For youth, the frequency of Person offenses increased, Property offense decreased, Society offenses remained constant, and other offenses decreased. For adults, Person offenses decreased, Property offenses decreased, Society offenses remained constant, and other offenses decreased.
2. Person-specific crimes – Change from Summer 2024 – Summer 2025: For youth, the frequency of Aggravated Assault increased, Simple Assault increased, and Robbery decreased. For adults, Aggravated Assault decreased, Simple Assault increased, and Robbery increased.

RAINIER AND HENDERSON

1. All crimes – Change from Summer 2024 – Summer 2025: For youth, the frequency of Person Offenses increased, Property offense decreased, Society remained constant, and other offenses remained constant. For adults, Person offenses remained constant, Property offenses decreased, Society decreased, and other offenses decreased.
2. Person-specific crime – Change from Summer 2024 – Summer 2025: For youth, the frequency of Aggravated Assault decreased, Simple Assault increased, and Robbery decreased. For adults, Aggravated Assault increased, Simple Assault remained constant, and Robbery remained constant.

LIGHT RAIL

1. All crimes – Change from Summer 2024 – Summer 2025: For youth, the frequency of Person offenses remained constant, Property offenses remained constant, Society remained constant, and other offenses remained constant. For adults, Person offenses decreased, Property offenses decreased, Society offenses remained constant, and other offenses remained constant.
2. Person-specific crimes – Change from Summer 2024 – Summer 2025: For youth, the frequency of Aggravated Assault remained constant, Simple Assault remained constant, and Robbery remained constant. For adults, Aggravated Assault decreased, Simple Assault remained constant, and Robbery remained constant.

LAKE WASHINGTON

1. All crimes – Change from Summer 2024 – Summer 2025: For youth, the frequency of Person offenses increased, Property offenses increased, Society offenses decreased, and other offenses decreased. For adults, Person offenses increased, Property offenses increased, Society offenses remained constant, and other offenses decreased.
2. Person-specific crimes – Change from Summer 2024 – Summer 2025: For youth, the frequency of Aggravated Assault decreased, Simple Assault remained constant, and Robbery increased. For adults, Aggravated Assault remained constant, Simple Assault increased, and Robbery increased.

OUR SAFE WAY

1. All crimes – Change from Summer 2024 – Summer 2025: For youth, the frequency of Person offenses decreased, Property offenses increased, Society offenses decreased, and other offenses remained constant. For adults, Person offenses remained constant, Property offenses decreased, Society offenses remained constant, and other offenses remained constant.
2. Person-specific crimes – Change from Summer 2024 – Summer 2025: For youth, the frequency of Aggravated Assault remained constant, Simple Assault decreased, and Robbery Increased. For adults, Aggravated Assault increased, Simple Assault increased, and Robbery decreased.

ALL RAINIER BEACH HOTSPOTS: SPECIFIC OFFENSES BY AGE, GROUP, AND NUMBER

All Events: Quarterly Time Series 2014-2025

In this section, we provide a broad overview and historical context for the more detailed ABSPY hot spots crime statistics that appear in later sections.

Figure A presents the Q3 overall crime statistics in 2025, compared with the same quarter during the prior 11 years. As can be seen, crime volume during Q3 has generally fluctuated around 80 crimes per quarter during this period. While offenses were elevated during this quarter last year (and were in fact the highest among the prior 11 years), 2025 has regressed toward the overall average.

Figure B presents the quarterly data sequentially for 2025 year-to-date and the previous five years. It can be seen that 2025 (represented by the bold red line) is shaping up to be a fairly typical year as compared with the previous five years. While 2025 Q1 and Q3 were the second highest compared with the prior five years, 2025 Q2 fell more in the middle of the distribution.

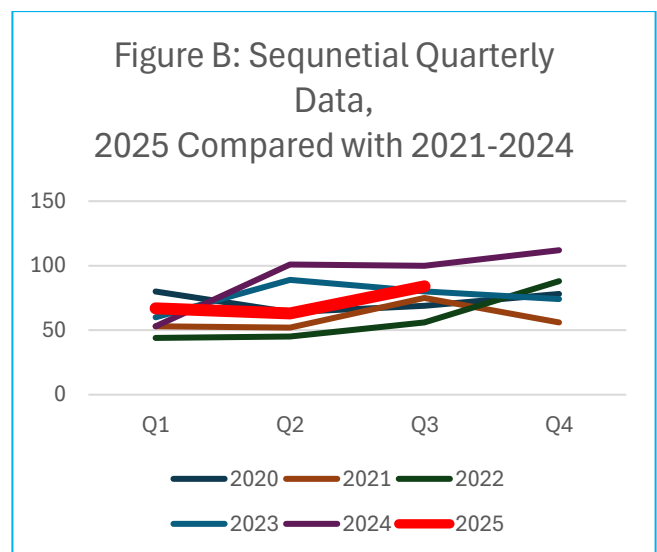

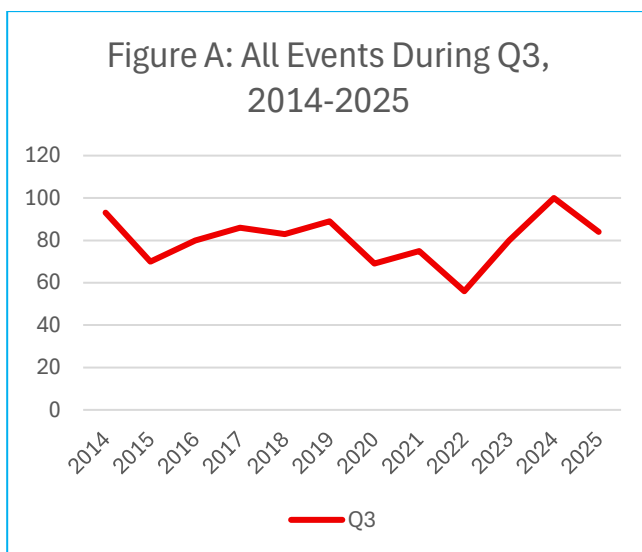

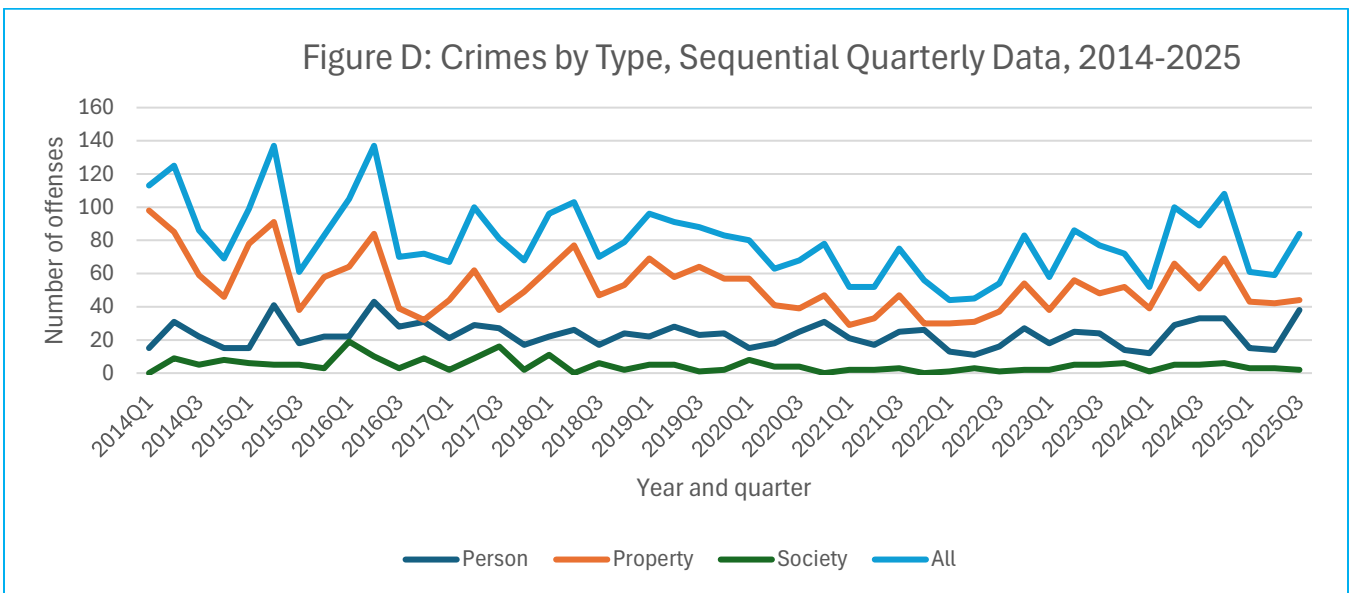

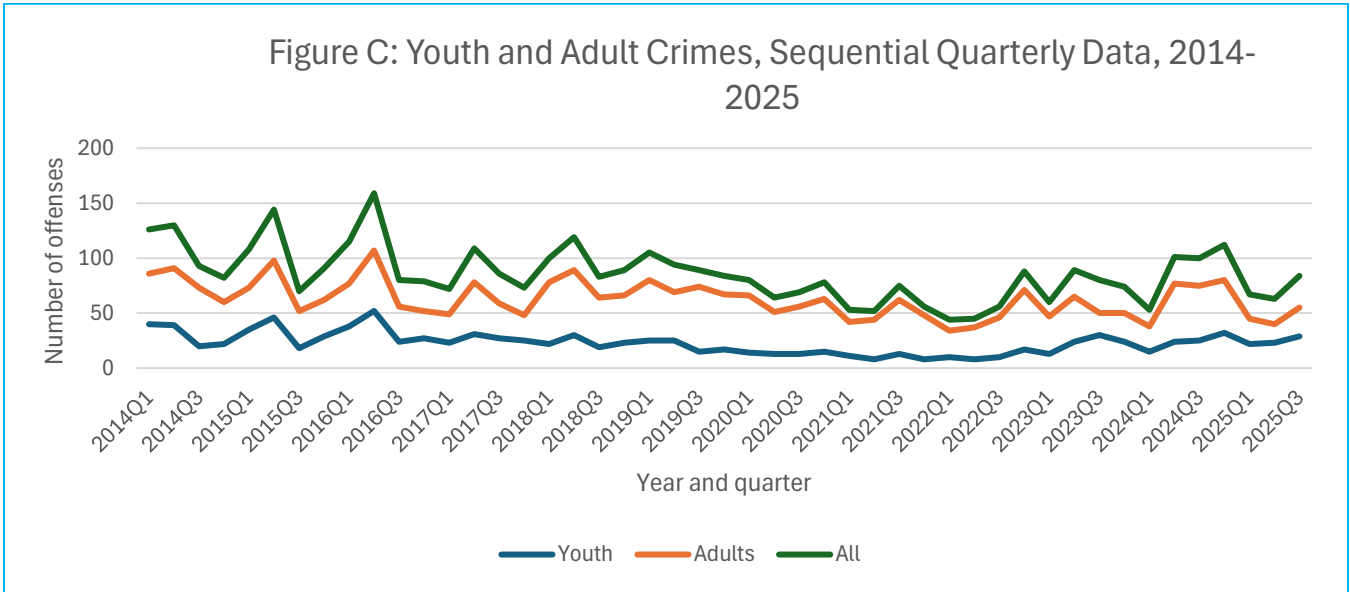

Figure C presents the sequential quarterly data from 2014 through 2025 year-to-date, with youth and adult crimes separated out. During this time period, offenses peaked at 159 (107 adult and 52 youth offenses) during 2016 Q2 and were lowest at 44 (34 adult and 10 youth offenses) during 2022 Q1. Looking at the overall sequence, it does appear that there may be a small upward trend forming from 2022.

Figure D presents the sequential quarterly data from 2014 through 2025 year-to-date, with crime types separated out (including Person, Property, and Society offenses). During this time period, peak values for Property offenses were 98 during 2014 Q1; peak values for Person offenses were 43 during 2016 Q2; and peak values for Society offenses were 19 during 2016 Q1.

All Events: June - August 2014-2025

- **Youth:** There were 223 offenses involving youth (74 Persons, 118 Property, 15 Society, and 16 Other) in all hotspots in June – August 2014-2025.
- **Adults:** There were 649 offenses involving adults (200 Persons, 374 Property, 36 Society, and 39 Other) in all hotspots in June – August 2014 – 2025.

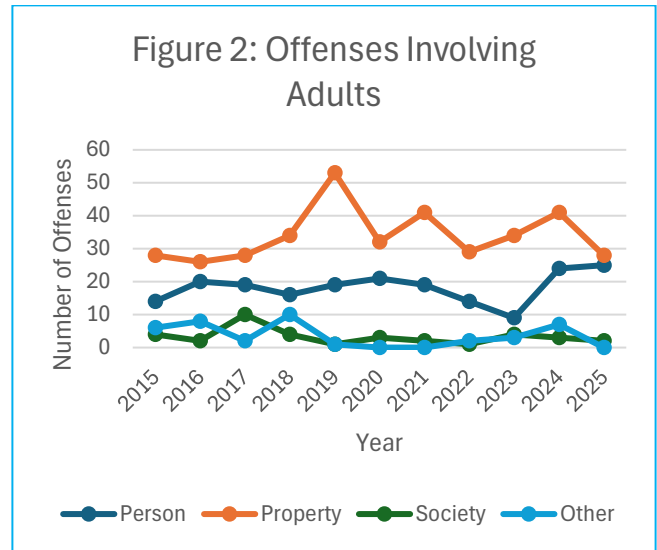

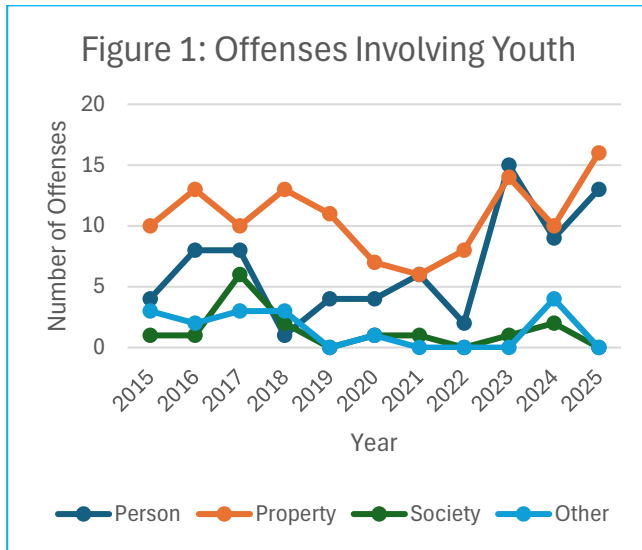

Table 1: Frequency of Offenders

Year	Involving Youths				Involving Adults			
	Person	Property	Society	Other	Person	Property	Society	Other
2015	4	10	1	3	14	28	4	6
2016	8	13	1	2	20	26	2	8
2017	8	10	6	3	19	28	10	2
2018	1	13	2	3	16	34	4	10
